

Whistleblowing Policy

This policy has been agreed by the Senior Management Team, is monitored by the Designated Senior Leads in conjunction with the company Safeguarding Policy and Procedures and is reviewed annually to ensure its effectiveness. It is implemented across the company and available on the website.

At Ashbridge Independent School and Nursery, we expect all adults who are employed by the company or are part of the wider team and work with us in other capacities, such as volunteers, students and freelance teachers, to be professional at all times and hold the welfare and safety of every child as their paramount objective.

We recognise that there may be occasions where this may not happen and this procedure sets out the expectations we have regarding disclosures to ensure the welfare and safety of children or any other people is not unnecessarily put at risk.

We promote a culture of safety and raising concerns and as part of this it is essential that all team members talk through any concerns they may have with their line manager at the earliest opportunity to enable any problems to be resolved as soon as they arise.

Disclosure of information

The disclosure procedure set out below must be followed if, in the course of employment, or other association with Ashbridge Independent School and Nursery, a person becomes aware of information or witnesses something and reasonably believes one or more of the following is happening, may be happening, or is likely to happen:

- Concealment of information relating to any of the above

Where this information relates to child protection then the company Safeguarding Policy and Procedures will be followed.
